

ViCat

Whitepaper V1
(01/2022)

Let's make crypto a cat friendly place!

The Goals

ViCat is a meme coin for cat lovers and everyone who enjoys crypto. Its goal is getting more people to get involved in crypto and especially in the VITE chain. While there are lots of dog coins out there, cat people seem to come short too often. ViCat wants to represent the cat lovers in the VITE community, deliver platforms for VITE enthusiasts of several regions and languages and help in growing the reach for the VITE chain. Since its a meme coin, the most important goal is creating a fun experience for all those who would like to get involved! On top of that, we're currently evaluating the possibility of selling a share of the marketing budget some time after the listing in order to make a donation to an animal shelter and therefore helping some cats in need.

The Team

ViCat was created by the team behind the VITE Tools website (vitetxs.de, @VITEtools on twitter). The core team member are longtime crypto-enthusiasts with a professional background in IT and fans of the VITE chain and its underlying ideas. As ViCat wants to grow, we're currently looking for additional team members to help in further development of ViCat. But the most important team member is the ViCat community, which massively influences the way, ViCat and its platforms will develop in the future.

The Brand

ViCat is a cat coin. So it is obvious that cats are a major part of the ViCat brand. ViCat was made in Germany, where a common saying about cats is that they live 7 lives. That's the reason why the number 7, which is also considered a lucky number, plays such a dominant role for all ViCat platforms. ViCat's roots are the reason for its desire to build ViCat communities in multiple regions and languages.

The VITE Chain

ViCat is built on the VITE chain. VITE believes in a future where many blockchains will grow to serve different needs. Easy transfer of data and assets between blockchains will become increasingly important. VITE is designed to bridge every blockchain in a decentralized way. VITE is the fuel that powers transactions on VITE's chain. Unlike the traditional fuel (gas) which is consumed on other public chains such as Ethereum, VITE is used to stake for computational and bandwidth resources, and can be retained at no cost once transactions are complete - and that means free! The VITE coin is currently listed on many top tier exchanges for purchase. More: vite.org

The Distribution

25% Free Public Distribution

- Giveaways
- Airdrops
- Faucet

15% Distribution through Presale

Purpose of use:

- Listing costs on exchanges
- SBP setup, rewards and costs of maintenance

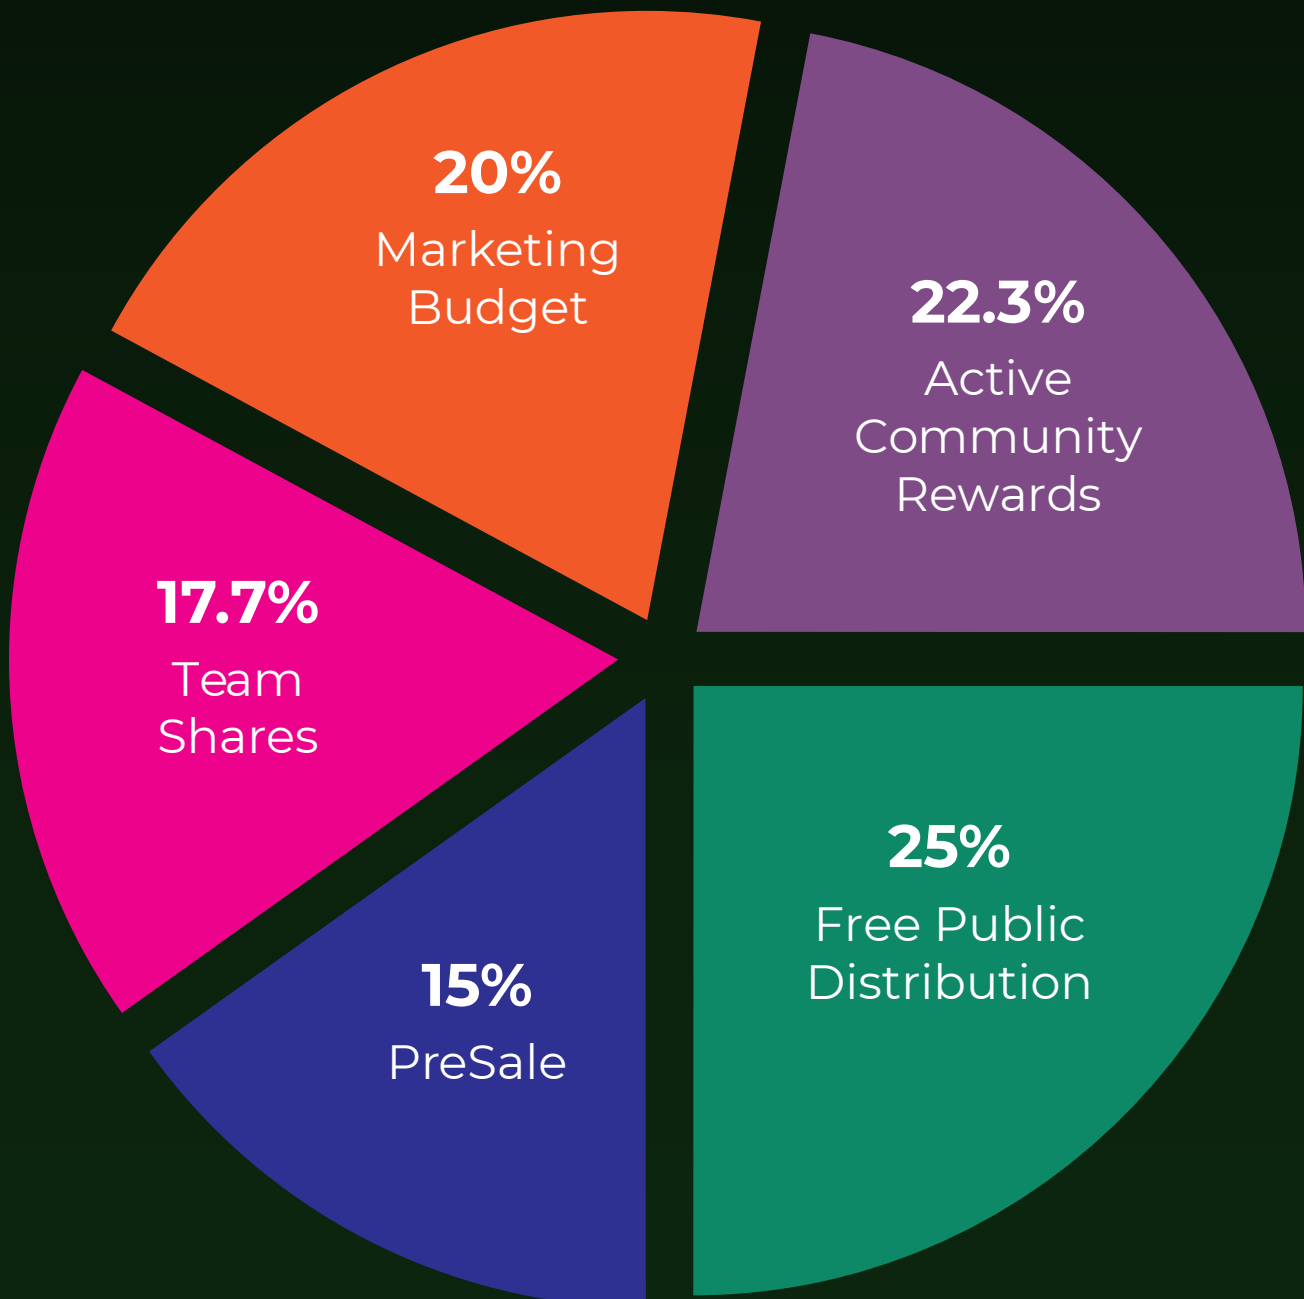

20% Marketing

- ViCat promotion

22.3% Active Community Rewards

- Developer
- Designer
- Mods
- Staking

17.7% Team

The Facts

- There are 777,777,777,777 ViCat
- There will never be more, so ViCat is inflation-safe
- Token ID on VITE chain is tti_b3fbb46b9318b3d168ba904e
- It's fast! Under 1 second transfer time
- It's feeless! Send your friends your ViCat coins for free
- It's decentralised! No need to worry about a man in the middle
